23 EPS, NAV per share and NOCFPS

23.1 Earnings per share (EPS)

Earnings per share (EPS) is calculated in accordance with the IAS 33 Earnings per share. The composition of EPS is given below:

In thousands of BDT	**2026**	**2025**
Earnings attributed during the period to the ordinary shareholders (a)	**363,372**	628,056
Number of ordinary shares outstanding at the end of the period ('000) (b)	**19,274**	19,274
Earnings per share (BDT) (a/b)	**18.85**	32.59

23.1.1 EPS decline was primarily driven by a one-off gain recognised in the base year following a reassessment of trademark and technology royalty obligations. Lower finance income and reduced profits due to sales degrowth further contributed to the decline.

23.2 Net Asset Value (NAV) per share

In thousands of BDT	**2026**	**2025**
Total assets	**3,626,620**	3,653,121
Total liabilities	**(1,831,256)**	(1,582,848)
Net assets (a)	**1,795,364**	2,070,273
Weighted average number of ordinary shares ('000) (b)	**19,274**	19,274
Net Asset Value per share (BDT) (a/b)	**93.15**	107.41

The decrease in NAV per Share is due to declaration of FY2025 dividend and payment during the period coupled with lower earnings accumulation. NAV per share as at 31 December 2025 was BDT 116.30.

23.3 Net operating cash flow per share (NOCFPS)

In thousands of BDT	**2026**	**2025**
Net cash from generated from operating activities (a)	**735,778**	(321,880)
Weighted average number of ordinary shares (b)	**19,274**	19,274
Net operating cashflows per share (BDT) (a/b)	**38.17**	(16.70)

NOCFPS increased year-on-year despite lower net profit, primarily due to lower operating cash outflows following the settlement of the majority of Usance Payable at Sight (UPAS) LCs in the base year.

25 Explanations for significant deviations:

25.1 EPS decline was primarily driven by a one-off gain recognised in the base year following a reassessment of trademark and technology royalty obligations. Lower finance income and reduced profits due to sales degrowth further contributed to the decline.

25.2 NOCFPS increased year-on-year despite lower net profit, primarily due to lower operating cash outflows following the settlement of the majority of Usance Payable at Sight (UPAS) LCs in the base year.

25.3 The decrease in NAV per Share is due to declaration of FY2025 dividend and payment during the period coupled with lower earnings accumulation.
